RESPONSE TO ELECTION REQUIREMENT

BOX: Non-Fee Amendment  
Commissioner for Patents  
Washington, D.C. 20231

Sir:

In response to the Office Action dated October 3, 2002, the applicant would like to point out that claims 1-7 were cancelled with the filing of this divisional application. Therefore, claims 8-26 are the pending claims in this application.

In response to the restriction requirement set forth in the Office Action, the applicant elects with traverse the claims of group II (Claims 8-21). Please withdraw remaining claims 22-26. Group or Invention I, is not applicable as suggested by the Examiner.

The Examiner's requirement is respectfully inappropriate. For the Examiner to effectively examine this case a search will have to be done in all relevant subclasses. This would likely cover subject matter in the non-elected claims which are in the same class, and related subclass.

Accordingly, the Examiner's request is burdensome, not only on the applicant and the public, as it would require multiple patents to cover the technology of the claims of the invention.

Reconsideration of the above application is respectfully requested. Should matters remain which the Examiner believes could be resolved in a telephone interview, the Examiner is requested to telephone the Applicant's undersigned attorney or agent.

Respectfully submitted,

Margo Maddux
